Subject: RE: what do I need to prepare for all-hands meeting?
Attachments: EFED All Hands Meeting - Feb 2018 final.pptx

I'll get here by 9:00, and we have 30 minutes before the 9:30 briefing on 2,4-D. Usually if I aim for 9:00, I'll be here earlier, so I'll stop by when I arrive.

See attached for slides, and below for talking points from Schaible on PRIA3/4.

Audio-visual wise, we'll use your new call-in (Jean is supposed to be adding it to the invite) and the room people know we need to project slides. We can have Jean attach the slides to the invite first thing in the morning, after your last look (if you want one).

Thanks!

Subject: RE: Do you have talking points on PRIA reauthorization, CR, and the plan if PRIA isn't reauthorized?

Kimberly, Mark, and Marietta-

Very high level bullets addressing your request are:

- PRIA 4 still pending in the Senate. Passed the House and out of the Senate Ag Committee by unanimous consent this past spring/summer. A hold placed by a group of senators is preventing the measure from being taken up for vote by the full Senate
- PRIA 3 expiration date is extended through March 23, 2018, by the most recent continuing resolution
- If PRIA 3 not further extended and PRIA 4 not enacted before 3/23/18:
 - PRIA 3 phase out provisions would go into effect
 - Remainder of fiscal year 2018- fees reduced 40% from FY'17 levels
 - Fiscal year 2019- fees reduced 70% from FY'17 levels
 - Effective 9/30/19, the requirement to pay and collect registration service fees terminates
 - All applications received under phase out provisions do not receive a PRIA decision time frame
 - Applications received under PRIA 3 prior to phase out provisions would continue to have decision time frames
 - A lapsing of PRIA also means the expiration of maintenance fee collection authority. EPA currently collects \$27.8M/annually in maintenance fees, which go to pesticide reevaluation activities (mainly reg review), inert ingredients review, review of fast track registration and amendment applications, and specified IT-enhancements to support pesticide registration activities.
 - EPA has invoiced maintenance fees for FY'18 and at this point has collected \$27.5M

I'll be in on Monday. Let me know if you need more than this.

Steve
